LETTER OF RECOMMENDATION
RE: TURBO CONTROL SOLUTIONS SDN BHD

This letter is written to express our complete satisfaction with the TM2500+ Balance of Plant installation services provided by Turbo Control Solutions (TCS) with two TM500+ in Azzawia and two TM2500+ in Tripoli West of Libya, successfully installed for our Client – General Electricity Company of Libya (GECOL).

The services of TCS were provided in a professional manner, within predetermined time constraint. The Principals of TCS provided an array of alternatives and proposals from which to choose throughout the development process which resulted in a very successful project.

We have received numerous compliments from participants in the Project who found TCS members displayed a pro-active and positive manner in their activities during the Project work. This has shown the excellent capacity of TCS has acquired in this field, and their contributions have been highly significant in support of our success in this BoP installation project on a turnkey basis.

We intend to continue and strengthen our relationship with TCS as further enhancements to our future collaborations.

In summary, it is our utmost pleasure to recommend to you TCS as an excellent technical service provider to execute any kind of project in its related field.

Yours faithfully,

David J. Popko
Lead Sourcing Specialist
