LETTER OF RECOMMENDATION  
RE: TURBO CONTROL SOLUTIONS SDN BHD

This letter is written to express our complete satisfaction with the technical engineering services provided by Turbo Control Solutions Sdn Bhd (TCS) in carrying out major overhaul on Frame 5 Gas Control Valves and its control system verification, configuration, troubleshooting, commissioning and start up at our Atthadi Field, Libya, and Mark II Control Panel Servicing at our Area 1 power plant Brega, Libya.

The services of TCS were provided in a professional manner, within predetermined time constraint. The Principals of TCS provided an array of suggestions and alternatives throughout the whole technical process which made the end result customized to our needs and satisfying.

We have received numerous compliments from participants in the Project who found TCS members displayed a pro-active and positive manner in their activities during the Project work. This has shown the excellent capacity of TCS has acquired in this field, and their contributions to our Project have been highly significant in rectifying our primary concerns on the technical challenges.

We intend to continue and strengthen our relationship with TCS as further enhancements to our future collaborations.

In summary, it is our utmost pleasure and honour to recommend to you TCS as an excellent technical service provider to execute any kind of project in its related field.

Thanking you.

Yours faithfully

A.AHDASH  
Power operation superintendent
